1. This Amendment addresses a question concerning “at sea pay” as follows:

Q1: In reviewing Section B of the subject RFP, we noticed that a separate line for "At Sea Pay" was not included. As you probably know, sea pay is a major expense when pricing the overseas Senior Data Analyst positions because of the amount of sea time logged in support of Fleet operations and exercises. Some offerors may factor in sea pay in pricing the individual labor cost for overseas positions in the Senior Data Analyst labor category; some may not as a result of just not knowing anything about Fleet schedules; others may treat sea pay as part of travel. Therefore, the offers you receive may reflect a great range in pricing for positions in the Senior Data Analyst labor category. Do you want offerors to factor in sea pay as part of the individual labor costs or do you want to add a separate NTE line to the support costs in Schedule B, or include this cost as part of Travel?

A1: Based on the question above, Section B has been revised to include a separate NTE CLIN for “At Sea Pay.” Section C has also been changed to include a Section discussing the requirements associated with “At Sea Pay.”

2. The following changes have been made to the Schedule, and are attached hereto:

a. A revised Section B incorporates an additional CLIN for “At Sea Pay” which utilizes a Government estimated NTE pricing structure.

b. Section C has been changed to incorporate Section C.13 entitled *At Sea Pay Cost Estimates*.

3. The closing date and time for this subject solicitation is NOT extended. Consequently, the closing date remains as established by Amendment 0004, 20 February 2001, at 2:00 PM local time.
